

Information Sheet

Q1.

RESEARCH PARTICIPANT CONSENT FORM

Dear Participants,

We sincerely invite you to participate in this study. The PI of this study is Dr. Qingchuan Zhao from City University of Hong Kong. Please review the information below and sign where required if you agree to participate in this research project:

1). I have been provided with information about the project and had any questions regarding my participation and any associated risks and benefits answered to my satisfaction. I understand my participation in the research will involve the following procedures: I need to use an asked web browser to visit websites as normal. The researchers will present me with multiple pairs of images and let me determine which one looks like a real one in each pair. The collected data will be used as the ground-truth dataset to evaluate the effectiveness of tools in detecting deepfake images. The total duration is about 10 minutes, and the data collection

process is one-off. This study doesn't involve any photography, video/audio recording.

2). I understand that the information I provide for this research will be used for the following purposes: the questionnaire's answers will be used to evaluate a tool's effectiveness in detecting deepfake images; only the evaluation results will be published in conference/journal papers, and the data will be treated confidentially. I will not be identified in any publications resulting from the study except where I have given my written permission for this to occur.

3). I have been provided with contact details of the investigators and understand that I can contact them at any point during the study.

4). I understand that this study will not cause any discomfort and harm to me, and I am free to withdraw at any time if I feel it may cause risks of any kind.

5). I understand that my participation in the project is totally free. I will not receive any kind of compensation/payment.

6). I understand that my participation in the project is entirely voluntary and that I am free to withdraw from the study at any time and without having to provide a reason for my withdrawal.

7). I understand that I may ask for part or all of the information provided by me to be removed from the study without penalty or explanation.

8). Information provided by me will only be accessed by PI (Dr. Qingchuan Zhao) and used for the purposes outlined above. It will be stored securely in a computer located at City University of Hong Kong. The computer is protected by password, which is updated periodically. The data will only be used for research in this project and will be destroyed one year after the completion of this project.

Reply Slip

I have read the above information statement and understand the procedures and other information described above.

I am willing/unwilling to participate in this study.

I give consent:

· to use a web browser to view pre-setup websites, and the _____ yes _____ no my answers to a questionnaire will be stored anonymously and used for research purposes.

Do you consent to take part?

Yes

No

Question

Q3. Which of the following images is real? (The number of real images in the options is uncertain.)
